PROFESSIONAL SUMMARY

Entry-level Python Full Stack Developer skilled in React.js, Next.js, Django REST Framework, and PostgreSQL. Completed full-stack developer training at Upcode Software Labs and developed team-based CRM and e-commerce projects. Familiar with REST API integration, JWT authentication, Redux Toolkit, and Git.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Material UI (MUI), Redux Toolkit, Axios
- **Backend:** Python, Django, Django REST Framework, REST APIs, JWT Authentication
- **Database:** PostgreSQL
- **Tools:** Git, GitHub, GitLab, Postman, VS Code

PROJECTS

CRM Management System | *Team Project (4 Members)*

Technologies: Django REST Framework, Next.js, TypeScript, PostgreSQL, Material UI, Redux Toolkit, Twilio

- Contributed to a full-stack CRM system covering Companies, Leads, Deals, Tickets, Activities, dashboards, and communication workflows.
- Developed the Company module with CRUD operations, multi-owner assignment, search, filtering, pagination, and CSV bulk import with backend validation.
- Integrated Django REST APIs with responsive Next.js and Material UI interfaces; contributed to dashboard reporting, Redux Toolkit state management, testing, and Twilio calling integration.

Full-Stack E-Commerce Application

Technologies: React.js, Django REST Framework, PostgreSQL, Redux Toolkit, JWT

- Developed a Figma-based full-stack e-commerce application with JWT authentication, product and category management, shopping cart, checkout, and order history.
- Integrated React.js interfaces with Django REST APIs, PostgreSQL, and Redux Toolkit for data management, authentication, and cart state management.

TRAINING & CERTIFICATIONS

Upcode Software Labs — Gen AI Powered Full Stack Developer (React + Python)
January 2026 – September 2026

Completed a nine-month program covering React, Next.js, TypeScript, Redux Toolkit, Python, Django, REST APIs, PostgreSQL, Git, cloud deployment concepts, and AI fundamentals.

Certifications

- AI Predictive Model Using Python
- One Million Prompters

EDUCATION

B.Tech in Computer Science & Engineering
Calicut University | *2014 – 2018*
